

Perfect Person (2009 Remastered)

Nothingface

I don't understand this, all pain pushed inside, all plastic frustration
Why you cannot be you, I am walking hate, all this surrounds me
I can't even try, I don't understand Why I hate me You do not see, I don't understand, in a mirror I see nothing
Why don't I see something, my mind my own prison, your face my own toy
I have no honest reflection, I don't understand Why I hate me See what I am, everything has changed, and I can't
find my own mind
Cause everything feels dead I can't feel
I am numb
A perfect person Kill me Found out what I'm doing, I can't find my head
