To Be You (Remix)

Kim Lukas

To be you
To be youEverybody needs somebody
Even if it's just a friend
If nobody's there for you
To give a hand then I will lendI can see confusion in your mind
Open up to me and you will findYou've a right, to be you
To feel good, to feel high, to make your dreams come true
You've a right, to be free
So come on forget all, a big smile's what you needLife's not easy full of rough and smooth
From start to end
But if you're strong you'll get along
And see that times can mendClose your eyes and
See what's in your heart
If love is what you find
Then it's a startTo be you
To be you
