

# Let Me Lie

Hayley Westenra

Let me lie on grasses green  
On my mother earth I lean  
Let me lie on grasses green  
On my mother earth I lean  
Under burning sun  
Through my veins she runs  
Let me breathe the forest air  
It's the life force that we all share  
Feel my burning tears  
Heal me through as I lie  
Here with you, heal me through  
Let me sleep and keep me close  
Heal me through as I lie  
Here with you, heal me through  
Let me sleep and keep me close

Let me lie on grasses green  
On my mother earth I lean  
Under burning sun  
Through my veins she runs  
Heal me through as I lie  
Here with you, heal me through  
Let me sleep and keep me close  
Heal me through as I lie  
Here with you, heal me through  
Let me sleep and keep me close  
Under burning sun  
Through my veins she runs  
Her and I are one
