

God Knows I Love You Kid

Lorene Drive

Advisory - the following lyrics contain explicit language:

A bad habit, a heart shut
The final act has just begun
An empty pocket, a little love
We all watch the curtain open How I want this moment to pass
I dont want to fake it no more Your voice is giving out
And your eyes need some rest
I love you, girl, God knows I love you
But you know that I know best You see your face is different now
So much different than the rest
I love you, girl, God knows I love you
But you know that I know best
Yeah, you know that I know best Daddys got a brand new bag
And hes gonna give it all to you
But you dont want none unless I got some
Just got to get it through to you Daddys got a brand new bag
And hes gonna give it all to you
But you dont want none unless I got some
Just got to get it, just got to get it through to you A bad habit, a heart shut
The final act has just begun
An empty pocket, a little love
We all watch the curtain open How I want this moment to pass
I dont want to fake it no more Daddys got a brand new bag
And hes gonna give it all to you
But you dont want none unless I got some
Just got to get it through to you Daddys got a brand new bag
And hes gonna give it all to you
But you dont want none unless I got some
Just got to get it, just got to get it through to you Just got to get it through to you
Just got to get it
Just got to get it, yeah When you're all alone in the world
Its so hard enough on you
'Cause Im all alone and lost without you

All alone and lost without you When you're all alone in the world
Its so hard enough on you
'Cause Im all alone and lost without you, all alone Your voice is giving out
And your eyes need some rest
I love you, girl, God knows I love you
But you know that I know best
Yeah, you know that I know best Daddys got a brand new bag
And hes gonna give it all to you
But you dont want none unless I got some
Just got to get it through to you Daddys got a brand new bag
And hes gonna give it all to you
But you dont want none unless I got some
Just got to get it, just got to get it, yeah
Just go to get it [Incomprehensible] Just go to get it through you
Just go to get it, yeah
Just go to get it through you
Just go to get it
