

The Gospel Song

Frazey Ford

Why do we go when the blue sky turn to liquid
and the cold trees stark naked.

Ohio upon the mountain we were growin' up-So strong.And I have found a flower that is growin in the forest
and we talked by the hour

Oh we were not lovers, but I loved you.

Oh-oh-oh-oh lovedAnd ooooooh- beautiful clouds

I've been sailing through

Oh golden clouds

I've been sailing through youWell my mother was a garden of all things unspoken

and my father came around me like a broken little soldier

and my sister, she is wonderin' what the hell is all around us,

but there's beauty over us, but there's beauty over us, ahhhh.What ya do is sacred and what ya say doesn't
matter much.

Your movin' your lips but your mind is on fire.And now the steam is risin' like I did all once a- a love came
right through me from above and I sang up to my God and he saved me once again. Waaahaaa..And if you have
a brother than you can understand what it is to love and grow up to love..... and things get shattered.And

oooooh- beautiful clouds,

I've been sailing though,

Oh golden clouds.

I go sailing through you.
