

# Circles

Nelly Furtado

The day is getting late It's a lot to take Looking at your face It hides nothing Emotions are recycled I open the window

I don't know about you But I'm feeling stifled  
Then I get just a glimpse I see where our love is Please look into my eyes Baby you gotta try to  
Dial into me Dial into me Dial into me Dial into me

Don't talk in circles  
You don't know what to say  
How did we get this way  
It's like we just press play  
And run on automatic (it gets so static) I can barely breathe  
You're filling up with steam  
You say it's about me  
But I'm just setting boundaries  
Then I see a bright light I see it's worth the fight I know we'll get it right

Baby our love can shine if you  
Dial into me  
Dial into me  
Dial into me  
Dial into me  
Don't walk in circles  
We're after the same things  
Bursting at the same seams  
I cannot carry the whole load here  
No I can't tell you what that means  
I'm gonna carry my load  
If you promise not to take your eyes off me Don't take your eyes off me  
Don't take your eyes off me  
Let's break the circle
