## **Circles**

## **Nelly Furtado**

The day is getting late It?s a lot to take Looking at your face It hides nothing Emotions are recycled I open the window

I don?t know about you But I?m feeling stifled

Then I get just a glimpse I see where our love is Please look into my eyes Baby you gotta try to

Dial into me Dial into me Dial into me

Don?t talk in circles

You don?t know what to say

How did we get this way

It?s like we just press play

And run on automatic (it gets so static) I can barely breathe

You?re filling up with steam

You say it?s about me

But I?m just setting boundaries

Then I see a bright light I see it?s worth the fight I know we?ll get it right

Baby our love can shine if you

Dial into me

Dial into me

Dial into me

Dial into me

Don?t walk in circles

We?re after the same things

Bursting at the same seams

I cannot carry the whole load here

No I can?t tell you what that means

I?m gonna carry my load

If you promise not to take your eyes off me Don?t take your eyes off me

Don?t take your eyes off me

Lets break the circle
