Chip Off The Block

Ima Robot

I want the chip off the old block
I want a girl, who I can talk to
Stumblin' through your neighborhood
Defacing walls just like I shouldOoh, I wanted to be you
Dirty like the skies
You live in space
Your life's a waste like mineSo let's just stop before we die
I know you don't care at all, ooh
But what if right before the end we quit now?
Why don't we just stop before we die?We saw our names in the lights
Chasin' dragons through echo park
Raisin' hell on a quiet afternoon
Sandbox heroes, we lonely foolsOoh, I wanted to be you
Take that and put your lips like mine
'Cause here in space
We're wastin' all our timeSo let's just stop before we die
I know you don't care at all, ooh
But what if right before the end we quit now?
Die or tell the truth and don't you lie
And tell the truth before we dieAlways needed love
All I needed was love, was love
And I always needed you
All I needed was you, was you
Was you, it's you, it's youOoh, I wanted to be you
Dirty like the skies
You live in space
Your life's a waste like mineSo let's just stop before we die
I know you don't care at all, ooh
But what if right before the end we quit?
Let's try and what if they're rightAnd it's darkest before the light
Come on tell me your truth
'Cause you see I told you're mine
Or let's just stop before we dieBefore we die
Before we die
Before we die
Before we die
