

Forever Changed

[Lou Reed](#)

Train entering the city
I lost myself and never came back
Took a trip 'round the world and never came back
Black silhouettes, criss-crossed tracks, never came back Forever changed
Forever changed You might think I'm frivolous, uncaring and cold
You might think I'm empty, depends on your point of view
Society Andy, who paints and records them
The high and the low, never turn back Forever changed
Forever changed Forever changed
Forever changed Got to get to the city, get a job
Got to get some work, to see me through
My old life's behind, I see you preceding
My life's disappearing, disappearing from view Hong Kong and I was changed
Burma, Thailand and I was changed
A few good friends to see me through
Henry and Brigid to see me through Only art to see me through
Only heart to see me through
My old life's disappearing, disappearing from view Forever changed
Forever changed
I was forever changed
