I'll Just Fall

Lucero

I think I'll stay right down here on this floor
Cause if I get back up I'll only fall down more
It ain't the liquor and it ain't the beer that keeps me down
It ain't the sad songs or heartache it ain't even this townNow I must've had a pretty good time to end up here
Made a pretty good run it caught up with me my dear
There's no need to make a fuss cause I'll be all right
Just let me lay here a while 'til I can stand uprightNow I'm just a little bit tired that's all
Don't make me get back up cause I'll just fallWell now, please stop talking so loud and just let me sleep
I ain't in nobody's way they can just step over me
Well I think I'll just stay right down here on this floor
Cause if I get back up I'll only fall down some more
