

# Ready or Not

## Cascada

What is my destination?  
Spinning so fast I can't slow down  
I lose my head when you're around, yeah Don't tell me to run away from this  
Cause you've got the love I can't resist  
How can I breathe?  
How should I feel?  
Holding me back Baby what you do, what you do, what you do to me  
Makes me want to be somebody I'm not  
Every time you do, what you do, what you do to me  
Take your chance boy, ready or not Baby what you do, what you do, what you do to me  
Makes me want to be somebody I'm not  
Every time you do, what you do, what you do to me  
Take your chance boy ready, ready or not Take your chance boy, ready or not Longing for inspiration  
Somehow you turn me inside out  
I need an explanation now, right now Don't tell me to run away from this  
Cause you've got the love I can't resist  
How can I breathe?  
How should I feel?  
Holding me back Baby what you do, what you do, what you do to me  
Makes me want to be somebody I'm not  
Every time you do, what you do, what you do to me  
Take your chance boy, ready or not Baby what you do, what you do, what you do to me  
Makes me want to be somebody I'm not  
Every time you do, what you do, what you do to me  
Take your chance boy ready, ready or not Baby what you do, what you do, what you do to me  
Makes me want to be somebody I'm not  
Every time you do, what you do, what you do to me Take your chance boy ready, ready or not
