

We Are the Boys

Mansun

And twenty one was over the hill you feel
To pick up girls was always your wet dream
You laughed about the communist century Now it's the marx brothers taking over
Listened to ska, that was cool
Try and emulate those heroes
Misunderstood We are the boys, think about nothing and
We are the boys, boys have got feelings too
We are the boys, always been no-one and
We are the boys, boys have got feelings too There's never been a thing that a young boy missed
You got cars but ain't getting any
We never kept account 'cos they call us queens Video games, we have lost our souls
Bulldozer head 'cos we're stoned
All get hurt and bruised and tender
Bulldozer head 'cos we're stoned We are the boys, think about nothing and
We are the boys, boys have got feelings too
We are the boys, always been no-one and
We are the boys, boys have got feelings too Boys have got feelings
Boys have got feelings too
Boys have got feelings
Boys have got feelings too We are the boys, think about nothing and
We are the boys, boys have got feelings too
We are the boys, always been noone and
We are the boys, boys have got feelings too
We are the boys, think about nothing and (boys have got feelings)
We are the boys, boys have got feelings too (boys have got feelings too)
We are the boys, always been noone and (boys have got feelings)
We are the boys, boys have got feelings too (boys have got feelings too)
We are the boys, think about nothing and (boys have got feelings)
We are the boys, boys have got feelings too (boys have got feelings too)
We are the boys, always been noone and (boys have got feelings)
We are the boys, boys have got feelings too (boys have got feelings too)
