# No Place to Hide

## Marytre

In the end it all comes down to dust
Language will vanish and machines will rust
Reality will come apart at the seams
Your life will unravel into your dreamsNow a storm, it is gathering, reason's unraveling
Streets they are burning and darkness is traveling
Raw electricity, runs through the cities
And now it is the time to be running to meNowhere to run to and no place to hide
Make a final promise and I'll make you mine
We'll burn with raw emotion as the flames arise
Higher and higher in the western nightNow a storm, it is gathering, reason's unraveling
Streets, they are burning and darkness is traveling
Raw electricity runs through the cities
And now it is the time to be running to meNo place to hide, no chance of stalling
No warning sign, no way out calling
No place to hide, no chance of stalling
No warning sign, no way out calling
No place to hideThe mountains will crumble and the seas will rise
It will rain fire from blood red skies
I will shoot an arrow into your heart
You will come running into my armsTonight it is gathering, reasons unraveling
Streets, they are burning and darkness is traveling
Raw electricity, runs through the cities
And now it is the time to be running to meNo place to hide, no chance of stalling
No warning sign, no way out calling
No place to hide, no chance of stalling
No warning sign, no way out calling
No place to hideNo place to hide, no chance of stalling
No warning sign, no way out calling
No place to hide, no chance of stalling
No warning sign, no way out callingNo place to hide, no chance of stalling
No warning sign, no way out calling
No place to hide, no chance of stalling
No warning sign, no way out callingNo place to hide, no chance of stalling
No warning sign, no way out calling
No place to hide, no chance of stalling
No warning sign, no way out calling
No place to hideNow a storm, it is gathering, reasons unraveling
Streets, they are burning and darkness is traveling
Raw electricity, runs through the cities

And now it is the time to be running to meNo place to hide
