

What Do You Want From Me?

Burning Image

What do you want from me?

It's not enough that you can plainly see

It makes no difference that I'm much too young

But you don't care because you're never wrong

But I will give no more, and you'll be sad when I walk out that door

I'll be sure to tell them everything, and your merry men will gladly sing

And they'll sing about youI was put on this earth, without any worth

Now I'm hating my life cause it don't mean much to meIf you have it rough, well, you ain't so tough

It'll be a joy to see you shrivel up and die

And you know whyI was put on this earth, without any worth

Now I'm hating my life cause it don't mean much to me(You know what? You ain't worth shit!)If you have it
rough

Well, you ain't so tough

It'll be a joy to see you shrivel up and dieWhat do you want from me?I was put on this earth, without any worth

Now I'm hating my life cause it don't mean much to me
