Deep End

Distorted Penguins

I'm down and out
With or without
Dignity and pride
Now is the time to hideI just can't keep track of all the promises I've made
Maybe if I lay here long enough they will just fade away
I won't live this lie another day I make amends
I won't promise anymore
I know that I've gone off the deep end
I'm given up
I've had enough
You hang in there
Find someone who can care better than me
I can't change the past
We weren't meant to last
The one part I should get
Sorry doesn't cut it
