Falling Far Away

Ten Throne

What did you want from me?
Something I can't change
I think it's my potential
That always makes you stay

I hate to disappoint you
But I'll never change
I'll just manipulate you
So that you'll never leave

And everything
Everything you don't know
Cause everything's
Just a little bit higher
Take it down
Watch the time
You would ever
Never mind

Then every time
Anybody gets close
I kick them down
Kick them down into the fire
Take them down
To where we lie
Yeah...

And I keep falling far away from
Everything that I want
And now I guess
It's gonna happen again
I keep falling far away from
Everything that I want
And now I guess
I guess it's just who I am

Superstitious bad love
God, you're so naive
Keep tossing all your pennies
In the wishing well for me

Even though I disappoint you
Cinderella dream
Love is blind as awlays
See what you wanna see

And everything
Everything you don't know
Cause everything's
Just a little bit higher
Take it down
Watch the time
You would ever
Never mind

Then every time
Anybody gets close
I kick them down
Kick them down into the fire
Take them down
To where we lie
Yeah...

And I keep falling far away from
Everything that I want
And now I guess
It's gonna happen again
I keep falling far away from
Everything that I want
And now I guess
I guess it's just who I am

And now I see
It's my fault
Everything is my fault
And now I'll break
And now I'll fall
Everything is my fault

And I keep falling far away from
Everything that I want
And now I guess
It's gonna happen again
I keep falling far away from
Everything that I want
And now I guess

I guess it's just how I am

And I keep falling far away from
Everything that I want
And now I guess
It's gonna happen again
I keep falling far away from
Everything that I want
And now I guess
I guess it's just who I am (2x)
