

# Close My Eyes

## Ra Cailum

I live my days with the nights that we spent, all the love we shared  
I put my heart on the side for a while knowing you're not there  
I tried to carry on, to face the fact you're gone  
But I need you, so I close my eyes  
Close my eyes  
And I dream about you  
I close my eyes  
I can almost feel you in my arms again  
Mornings remind me of showers and talks in the soft sunlight  
Evenings of passion and cries of joy hold your memory tight  
You've been away so long and I sing so many songs about you  
I just close my eyes  
Close my eyes  
And I dream about you  
I close my eyes  
I can almost feel you in my arms again  
When I close my eyes I'm a kid again  
I can think about the time we became best friends  
And we played in the park didn't have a care  
Then you smiled at me and I knew right there  
I would hold your hand it would be the start  
Of a promise that no other love would steal my heart  
Now the pain of losing you I just can't erase  
But when I close my eyes it's a better place  
No one really sees you watching over me  
And I hope you feel me watching over you  
And when you go to sleep I pray the Lord to keep  
You in my dreams when I close my eyes  
Close my eyes  
And I dream about you  
I close my eyes  
I can almost feel you in my arms again  
Close my eyes  
And I dream about you  
I close my eyes  
I can almost feel you in my arms again
