This Is Not the End

Safe-Mode

This is not the end
This is not goodbye
From here and now on
Youâ€™re living through me

This is not the end
This is not farewell
I want you to stay
stay with me now

This is not the end
This is not goodbye
From here and now on
Youâ€™re living through me

This is not the end
This is not farewell
I want you to stay
stay with me now

Iâ€™m all alone
Standing here in darkness
When dreams turn to dust
And all hope seems too far away
I still hear you
I still see you
Please come back
Iâ€™m still here
Donâ€™t make me go through this

This is not the end
This is not goodbye
From here and now on
Youâ€™re living through me

This is not the end
This is not farewell
I want you to stay
stay with me now

Iâ€™m not going anywhere
Iâ€™ll stay until I die
But now youâ€™re gone
Thereâ€™s nothing left to save us
We are not one anymore
Heartbroken forevermore
Iâ€™m still here
Even though thereâ€™s nothing worth to save
Even though thereâ€™s nothing worth to save
