

The Truth

Lil Nigo

How do I get the sauce?
How do the juice?
They know that I'm livin proof
Everytime I step in the booth aye
How do I get the sauce?
How do I get the juice?
Ion know, it just happen when you the truth.

You know when you got the juice
You know when you got the sauce
Don't reach till I teach
Ask CP3 you know you gon get crossed
Ask Lebron James, who the real boss
I just got a ring I'm only 16 you don't know what that cost.

Floober with my money
They think that I'm ageing
Yao Ming, Jeremy Lin
They know I'm going straight in
They know I go for the win
Nah I could never pretend
I keep it 100 percent
I gotta keep it 100 percent
{ Bow Bow! }

How do I get the sauce?
How do I get the juice?
They know that I'm living proof
Everytime I step in the booth aye
How do I get the sauce?
How do I get the juice?
Ion know, it just happen when you the truth.

Don't see no competition
They pray on my downfall try to catchnme slippin.
Twitter wasn't blaming us on they pictures
I'm talking millions before the call it hamisin
That's word to my future wife
Ahead of my time is my future life
I don't see arrons like future wife

Gotta stay piped up for the IG
Stupid handles like I'm Kyree
You mad cause I did it right what you didn't do at all,
They sleep on the kid now they wanting me on the songs, I know you see my face whenever ya TV on,
We did it on our own, we did it on our own!

How do I get the sauce?
How do I get the juice?
They know that I'm living proof
Everytime I step in the booth aye
How do I get the sauce?
How do I get the juice?
Ion know, it just happen when you the truth.
