

Vomit Heart

Babes In Toyland

Well, I wear the same face as you
And you share my sick point of view
 But I do hate youVomit my heart
 Pull my head apart
 Vomit my heart
Pull my legs apartMad pilot fly high to the sky
 Just to tear off their arms
 Just to tear off their arms
With the carousel charmWell, I wear the same face as you
 And you share my sick point of view
 But I still hate youVomit my heart
 Pull my head apart
 Vomit my heart
Pull my legs apartI wear the same face as you
 And you share my sick point of view
But I still love youMy my brain's a carnival, all aflame
'Cause you're not the same, it's all rearranged
 But I do love youVomit my heart
