

Unison

Nicole Scherzinger

First I hit my clique
Baby where you at?
Stay right where you where
I will wait there
Ooh love, love is in the air
High, on live, I know you see my flame
Babe I try to give a whistle
S**t facing, let 'em stay
Where we going just let me know it
Hands in the air like I don't care
They say nothing last forever
Thou we clapping as we young
May this moment be as better
Run mile until the dawn
And if nothing come out tomorrow
We left nothing to be done
They say nothing last forever
So let's sing in the sun
Baby I'm laying on your shoulder
Hold you like you know me, don't be scared
In the moment seize it when you got it
Like you can't live without it
Cause life ain't fair
In my vibe, I'm in my zone just cool
Wanna rock with you
Let me share
On my Michael, on my Diana
I'm looking crazy, I don't care
They say nothing last forever
Thou we clapping as we young
May this moment be as better
Run mile until the dawn
And if nothing come out tomorrow
We left nothing to begun
They say nothing last forever
So let's sing in the sun
Ooh, ooh,
Let's sing under sun
Take me away tonight
Look for me, sing me your lullaby
Live the moment like is the last
Take me way tonight

Singing you under sun
Take me away tonight
Live the moment like is the last
Singing you under sun
