A Promise

Carl Thomas

More kisses babe, more hugs
And I'm showin' you more love
And I'm sensitive to your fears
Hope I'm answering your prayersOh Lord, guess I'm yours if you're sure, oh
And Lord, what else is there to ask for, ohThere's a promise on this mountain
That I'm climbin' just for you
It's just something that people share
Can't you feel love is in the air?There's a promise on this mountain
That I'm climbin' just for you
It's just something that people share
Can't you feel love is in the air?More sacrifice, more truth
I'll be more open with you
And I promise girl, there's no way
No one could ever take my faithOh Lord, guess I'm yours if you're sure, oh
And Lord, what else is there to ask for? OhThere's a promise on this mountain
That I'm climbin' just for you
It's just something that people share
Can't you feel love is in the air?There's a promise on this mountain
That I'm climbin' just for you
It's just something that people share
Can't you feel love is in the air?There's a promise on this mountain
That I'm climbin' just for you
It's just something that people share
Can't you feel love is in the air?There's a promise on this mountain
That I'm climbin' just for you
It's just something that people share
Can't you feel love is in the air?I've grown with you
Not a moment too soon
'Cause I'm wakin' up, reachin' out
For a love brand newI've grown with you
Not a moment too soon
'Cause I'm wakin' up, reachin' out
For a love brand newThere's a promise on this mountain
That I'm climbin' just for you
It's just something that people share
Can't you feel love is in the air?There's a promise on this mountain
That I'm climbin' just for you
It's just something that people share
Can't you feel love is in the air?
