

Said and Done

Brand New Sin

Don't talk to me
Then hide from me
Pacify me with your promises Don't keep me under
Lock and key
Take me to the brink of my sanity I can't stay but I can't run away
Hesitation I'm gonna find my own way through
With our without you
'Cause I can;t live witout it anymore
I'm gonna take my time
And time is my time
I'm gonna find my own way
