Power to Love

Jimi Hendrix

Shoot down some of those airplanes you've been driving,
especially the ones that fly too low.
Shoot down some of those airplanes you've been driving,
especially the ones that fly you too low.
Come on back to earth, my friend,
come on back'up with me.
We all been thru the nite time, babe.
Now let's reap the waves of reality.With the power of soul anything is possible.
With the power of soul anything is possible.Playing too much with one toy tends to lead into the foggy.
It's so groovy to float around, sometimes even
a jellyfish will agree to that.
I said flotation is groovy and easy,
even a jellyfish will agree to that.
Yeah, but old jelly's been floatin' so long
and so slack, lord, ain't no kinda bone in his jelly back.
Floatin' ev'ry day and ev'ry night is a risk, sometimes
the wind ain't right!
