

Napoleon Says

Phoenix

You know your French well
Didn't take any decision so far
Hit me like a freight train
Please consider my request You do expect a Messiah
You want to be European
See I would be your Bonaparte
Don't ever care 'bout what Napoleon says Well, look out, look at, look at me
Calm down, calm down, I said to myself this time
Look at what you look like
You know it suits you well Napoleon says to take off your coat
Take off your long johns too
Napoleon says to take off your coat
Take off your long johns too Look out, look at, look at me
Calm down, calm down, I said to myself this time
Look at what you look like
You know it suits you well Right hand in a trench coat
Right hand in a trench coat
Right hand in a trench coat
Right hand in a trench coat Napoleon says to come over here
Bring back your long johns too
Napoleon says to come over here
Bring back your long johns too Look out, look at, look at me
Calm down, calm down, I said to myself this time
Look at what you look like
You know it suits you well Right hand in a trench coat
Right hand in a trench coat
I said, right hand in a trench coat
Right hand in a trench coat Look out, look out, look out
Don't get yourself excited
Calm down, calm down, calm down
Go get yourself a white horse Right hand in a trench coat
I said, right hand in a trench coat
Right hand in a trench coat
Right hand in a trench coat
