

# Heading Home (feat. Josef Salvat)

## Gryffin

I won't stop, I won't look down  
I tried all my tricks, I broke all-new ground  
And in this final hour, look what I found  
I got this whole damn thing the wrong way around

Cause people gonna judge and people gonna talk  
And they can say what they like  
Won't keep me up at night, no  
People gonna judge and people gonna talk  
And they can say what they like  
Won't keep me up at night

Maybe we're still lost  
Maybe we'll never learn  
But as the dust settles down and I'm glad you're here  
I feel I'm finally headed home

Moments stuck all over you  
That's what I need and that's what we'll do  
I could walk a mile in your shoes  
I know how it feels to dance like you

Cause people gonna judge and people gonna talk  
And they can say what they like Won't keep me up at night, no  
People gonna judge and people gonna talk  
And they can say what they like  
Won't keep me up at night

Maybe we're still lost  
Maybe we'll never learn  
But as the dust settles down and I'm glad you're here  
I feel I'm finally headed home
