

Easy

Matthew Sweet

She remembers how we met through a friend of ours
I took her for a ride and laid her underneath the stars
And even now it makes me laugh to think, we wanted more
And always talked about how hard it was when really it was so easy
It was so easy
And ever since this stroke of
luck, I was feeling fine
Sometimes even seemed this life might be a friend of mine
But all these notions disappeared as soon as she was gone
It was as hard as they had always said, somehow we were so sasy
We were so easy
We always talked about how
hard it was, when really it was so easy
We were so easy
We were so easy
