

Forever and a Day

4 Door Theatre

She was falling just like rain
She was flowing like the ocean breeze
She was all my eyes could see
But no, that girl don't notice me

I wear my thoughts out on my sleeve
With the tank top and some blue jeans
But I cut my hair and change my name
If that could make Carolina stay

Stay with me like the moon in the sky
Climbing on rooftops through the golden night
Fire and light burn bright in her eyes
If I could just make her stay
She'd be mine forever and a day

She was laughing like no one cares
She was acting like no one's there
She was dancing like a movie scene
It was the most beautiful thing my eyes had seen

Whoah Oh Ooooh

If I could just make her stay
She'd be mine forever and a day

Like a flame in a coal
Like smoke I can hold
She's my wonder and I wonder how to get to her tonight
Through the crowd through the darkest of clouds
She's my thunder

Stay with me like the moon in the sky
Climbing on rooftops through the golden night
Fire and light burn bright in your eyes
If I could just make you stay
Would you be mine forever and a day
