Infinity

AJR

Was it all in my head?
In an empty bed
And I told you that I need you baby
Can't you see I'm alone oh oh?
I was lost in my feet
On an empty street
So I saved your seat infinity
Forever figures 5 and 3
You know oh ohCross my heart and hope to die
Stick a needle in my eye
My mama says to pick the best
And you are itHey!All our troubles gone
Like when we were young
Take me back to where we all began
Here we are again like we should have been
Oh my lady can I have this dance?My lady
Hey!All our troubles gone
Like when we were young
Take me back to where we all beganWas it hard to believe?
Wear your heart on my sleeve
And I'll hold you when you're lonely
When you're cold cause you're the only girl for meCross my heart and hope to die
Since you came into my life
My mama says to pick the best
And you are itHey!All our troubles gone
Like when we were young
Take me back to where we all began
Here we are again like we should have been
Oh my lady can I have this dance?
My ladyHey!All our troubles gone
Like when we were young
Take me back to where we all beganAll our troubles gone
Like when we were young
Take me back to where we all beganHere we are again like we should have been
Oh my lady can I have this dance?All our troubles gone
Like when we were young
Take me back to where we all began
Here we are again like we should have been
Oh my lady can I have this dance?My lady

All our troubles gone
Like when we were young
Take me back to where we all beganCross my heart and hope to die
Since you came into my life
My mama says to pick the best
And you are it.
