

Almost

Saint-Germain des-PrÃ©s CafÃ©

I was mad as hell at you
Walked out with intentions to
 Get up with this honey
 I just met on Monday
 'Cause I knew she was down
We went and had a drink or two
 But all I did was think of you
 And how I really love you
 In spite of all our troubles
 And so I stop myself
This is straight from the horse's mouth
I almost kissed her, and almost did her
 And almost went there with her
And I thought about you wouldn't bounce
 I know it's not that easy girl
 But you gotta believe me girl
 'Cause baby I ain't lyin'
 I'm just sick of fightin'
 And arguin' with you
 Baby, why can't we be?
 The way that we
 Were once before
 And you weren't getting on mine
And I wasn't getting on your last nerve

This is straight from the horse's mouth
I almost kissed her, and almost did her
 And almost went there with her
And I thought about you wouldn't bounce
 I was wrong, I was all wrong yesterday
 Should've never left you feeling that way
 I apologize for makin' you cry
 Baby please forgive me
This is straight from the horse's mouth
I almost kissed her, and almost did her
 And almost went there with her
And I thought about you wouldn't bounce
This is straight from the horse's mouth
I almost kissed her, and almost did her

And almost went there with her
And I thought about you wouldn't bounce
This is straight from the horse's mouth
I almost kissed her, and almost did her
And almost went there with her
And I thought about you wouldn't bounce
This is straight from the horse's mouth
I almost kissed her, and almost did her
And almost went there with her
