

Beautiful Day

Kerli

Someone is smiling, someone cries
Whatever it is, its alright
Someone is born and someone dies
Something is holding the lightIt's standing in the light now
Standing in the light now
Standing here right now for youEverything you do now
Everything you are now
Creating it right now for youIts a beautiful day, the sun's coming up
The sun's going down for you
Its a beautiful day and everyone says
The world's turning around for youThere is no need to be afraid
There is no need to deny
That everything is on its way
Life's going on in your mindIt's standing in the light now
Standing in the light now
Standing here right now for youEverything you do now
Everything you are now
Creating it right now for youIts a beautiful day, the sun's coming up
The sun's going down for you
Its a beautiful day and everyone says
The world's turning around for youIt's standing in the light now
Standing in the light now
Standing here right now for youEverything you do now
Everything you are now
Creating it right now for youIts a beautiful day, the sun's coming up
The sun's going down for you
Its a beautiful day and everyone says
The world's turning around for you
