Almost Innocent

Solea

I made my way down henry street
Down where we used to meet
It's been so long
Catching up is always hard to do
An open door you just can't walk thru
It's been so long

Memories start to fade away
No more complaining i've been told
You kept me guessing all along this road

It's all that i can see
It's where i long to be back home

Memories start to fade away
No more complaining i've been told
You kept me guessing all along this road

It's all a landslide
How did this get started
Almost innocent now dearly departed
