

# Razor

## Foo Fighters

Wake up it's time  
We need to find a better place to hide  
Make up your mind  
I need to know I need to know tonight Sweet and divine razor of mine  
Sweet and divine, razor blade shine Patience my dear  
We could spend a lifetime waiting here  
Maybe this time  
I hope I get the chance to say goodbye Sweet and divine razor of mine  
Sweet and divine, razor blade shine Day after day, cutting away  
Day after day but anyway Wake up it's time  
We need to find a better place to hide  
Make up your mind  
I need to know, I need to know tonight Sweet and divine razor of mine  
Sweet and divine, razor blade shine
