

# Screw Loose

[MxPx](#)

I'm going crazy  
I feel like punching walls  
I may need medication  
But that's not all I've got a screw loose somewhere deep inside my head  
It's pushing on my eyes, I'm strapped down to a bed I'm really messed up  
How did i get this way?  
I've gotta break something  
Just to feel ok I've got a screw loose somewhere deep inside my head  
It's pushing on my eyes, I'm strapped down to a bed
