

# Waves

## Hooverphonic

These gigantic waves just take me  
To an unknown destination under the moonlight  
Feel free to join me on my trip  
The tide will take us far beyond midnight  
Stars will guide us through this exotic white  
Stars won't be able to fool the knowledge of the magic dice  
This sea breeze is refreshing  
While the dolphins sing about these psychedelic moods  
These waves keep you going  
'Til you finally forget your original roots  
Stars will guide us through this exotic white  
Stars won't be able to fool the knowledge of the magic dice  
Wave after wave  
Wave after wave  
...
