Halcyon

Glass Towers

She came and saw that all her wilted love had blown away
But I still don't know why we choose to hate the loneliness awayWill I ever be your lover?
Will I ever be left alone?We name the streets our halcyon cause they're gonna be here when we're gone
Don't ever say the world's lost don't ever say that
She said why don't you come with me like you're sposed to we'll dance around the hall if you want to
Why don't you come with me like you're sposed to we'll dance around the hallsIt's hard to find love when they're talking like there's none to be found
They think the hardest part is knowing when to stick around
When we wake up in the morning thinking of what to do
I guess that's when you finally learn that all you know is see throughWe name the streets our halcyon cause they're gonna be here when we're gone
Don't ever say the world's lost don't ever say thatCause I want what you want
Don't ever say the worlds lost don't ever say that
