California

Normal Like You

I keep talkin' (shhhh)
Ya know I'm running my mouth
Again,
Baby, yeah
I can't avoid it
I just exploit it
Again my mouth is running me
Hey now dorthy
I thought you had ruby reds
That was the story that ya fed to me
Elaborated
Mis-communicated
Some yellow brick fantasy
Oh make me believe
That the girl
Was a dream
Someone wake me up
Hey now Dorthy
We ain't in Kansas no more
Please somebody come rescue me
(Arghahrh) you wicked witch melt already
Contain this fucking dog please Dorthy
I keep talkin' (shhh)
Your scarecrow is your tin man
He'll find his brain eventually, yeah
Just oil him up and
He'll do a little number
That heart will never beat again, no
Let's try to listen with our ears, California
Let go of crossing arms and follow the leader
Let's try to close our eyes to see, California
Look into the soul, you'll see there that faith is blind
Let's try to listen with our ears, California
Let go of crossing arms and follow the leader
Let's try to close our eyes to see, California
Look into the soul, you'll see there that make me
Believe
That the girl
Is a dream

Someone make me
Believe
That the world
Is a dream
Someone make me
Believe
That the girl
Is a dream
Someone wake me up
Let's try to listen with our ears, California
(Let's try to listen with our ears, California...)
Let go of crossing arms and follow the leader
(Let go of crossing arms and follow the leader...)
Let's try to close our eyes to see, California
(Let's try to close our eyes to see, California...)
Look into the soul,
You'll see there that faith is blind
Let's try to listen with our ears, California
Let go of crossing arms and follow the leader
Let's try to close our eyes to see, California
Look into the soul, you'll see there that make me
Believe
That the girl
Is a dream
Someone make me
Believe
That the world
Was a dream
Someone make me
Believe
That girl
Was a dream
Someone wake me up
I keep talkin' shit
Ya know I'm running my mouth
Again,
Baby, yeah
I can't avoid it
Oh no!
And that you better believe
