

Countdown

Chris Brown

[Chorus]

Lights out, countdown
want you to take it off right now
It's the countdown, about to play you out
I just wanna get up in it like yeah
Lights out, yeah, count down, yeah
want you to take it off right now
It's the countdown, about to ware you out!
Ive been trying to get at you miss lady
All up in your house, fuck you on your couch
Take you to the bed I know you lazy
Then we go up and down, youre screaming out that this dick amazing
And you gonna make a nigga wanna cuff you and wanna put me in a cage.
And Imma turn that ass out tonight
And I put all my money on it
I know you know my girl miley, so we fucking till the morning
Youre dirty, watching me put it on your body
Baby let me turn the lights down

[Chorus]

Lights out, countdown
want you to take it off right now
It's the countdown, about to play you out
I just wanna get up in it like yeah
Lights out, yeah, count down, yeah
want you to take it off right now
It's the countdown, about to ware you out!
Imma get all up in it miss lady
And Ill be kissing and licking on your body
And you can ride me, cause you know this dick stupid, aint it?
And Imma roll the red carpet out for that pussy make that pussy famous
And if yo nigga tripping,
Imma chip in and fuck around and make them payments
Girl, what time you want me to pull up to your house
Ill slip in when he step out
He go out partying with his boys
And Ill be partying in your mouth
Ga ga gon' head now kiss him, his breath smelling like liquor
I dont care if you get her, Ima always be that nigga when it's...

[Chorus]

Lights out, countdown
want you to take it off right now
It's the countdown, about to ware you out
I just wanna get up in it like yeah
Lights out, yeah, count down, yeah
want you to take it off right now
Its the countdown, about to ware you out!
Please don't make it easy
Cause Imma want you.. all night
And you got something to teach me
And baby when I get it, Imma get in it
And ima make love, love!

[Chorus]

Lights out, countdown
I want you to take it off right now
It's the countdown, about to play you out
I just wanna get up in it like yeah
Lights out, yeah, count down, yeah
Want you to take it off right now
Its the countdown, about to ware you out!
