

Stairway To Heaven

Be Your Own Pet

A stairway to heaven

Lean on my shoulder, lean on my shoulder

I want another year older

Lean on my shoulder, lean on my shoulder

And share a bed with me

Lean on my shoulder, lean on my shoulder

I want another year older

Lean on my shoulder, lean on my shoulder

And share a bed with me

Get this something out of my head

There's too much shit going on my brain

Hurry hurry hurry hurry

Cause I think I'm gonna go insane

Whatever whatever whatever whatever

I know I know you know you're clever

So seduce me, introduce me

On the list you've had forever

My brain is on fire, my brain is on fire

So whisper in my ear

When it's all over, when it's all over

You can come and kiss me right here

My brain is on fire, my brain is on fire

So whisper in my ear

When it's all over, when it's all over

You can call me, kiss me right here
