

# Hipbones And Microphones

## Cute Is What We Aim For

Your face is a bit too Myspace  
For my taste  
And sadly this is new but classic  
Classic case

Give them hell with that HTML  
Give them hell  
Checked and weighed out on display  
They remember the things that i say  
Are my jeans too tight?  
Does my blazer blaze?

Next comes the Photoshop  
To crop and cut  
To show those strangers just what  
You've been covered and covering up  
The shutter speed and the lighting that you need

Give them hell with that HTML  
Give them hell  
Checked and weighed out on display  
They remember the things that I say  
Are my jeans too tight?  
Does my blazer blaze?  
Checked and weighed out on display

La la la la lavish  
Lifestyle  
La la la la lavish  
Lifestyle  
La la la la lavish  
Mystyle  
La la la la lavish  
Lifestyle

Checked and weighed out on display  
They remember the things that i say  
Are my jeans too tight?  
Does my blazer blaze?

Hipbones and microphones  
Make my world go round and you know  
The microphones have got a mind of their own  
Now the whole world  
Now the whole world knows

---
