

My Day

Claire Tchaikowski

The doors are closed
The lights are down
The fire is warm
The night is mine

No-one to please but me
And nowhere to be but right where I want to be

Singin

La la la lalalala...

The sun is hot
And the breeze is cool
My work is done
The news is good and there's

No-one to please but me
And nowhere to be but right where I want to be

Singin

La la la lalalala...

Right now nothing and no-one can take this away
This is my time and my dreams
This is my day

My day, this is my day...
