

Brave Moon

Greta Svabo Bech

He takes her hand
Points it to the sky
Can't you see
The stars can hear you cry
Oh through the night
Oh through the night She turns around
Looks upon the sea
Whispering, tell me now
Do you see me
Oh in the night
Oh in the night And the birds cry
We can only see you
In the night sky
We can only see you dear moon
When your light is on
Turn your light on Sad eyes
Mother of the night
You only need water
As much as you need light
Oh when you grow
Oh do you know That the birds cry
We can only see you
In the night sky
We can only see you dear moon
When your light is on
When your light is on Oh dear mother of the night
Where do you go when it's light again
Sadness won't help you grow
Water is no good on it's own You've got the seeds now sew them...
You've got the light so turn it on... Turn your light o----n,
Turn your light o-----n...
