

Scientifical Madness

Jeru the Damaja

Scientifical madness
Scientifical madness
My status is the baddest
Scientifical madness
Scientifical madness
My status is the baddest There's a hole in the ozone layer
I'm rippin' vampires, you think I give a fuck?
Who's the biggest player
Or who's got the fattest bank roll?
What is it if a man gains the world
An' lose his own soul? Bio-engineered, mutated chickens
Niggaz lickin' one another
Brother killin' brother
An' you demon muthafuckas start coastal rivalries
The world's greatest lust is jewelery
Mind Jah lick you with disease So I inflict MCs like Ebola
Or some other man made cancer
Fuck a two-hundred dollar sweater
We need to try an' reach the niggaz
On the corner But all we do is create drug dealers
Envy then creates murderers
Diamond rings, pretty hoes
Fat chains, expensive things
Just watch which way
Ya burner swings in this world of Scientifical madness
Scientifical madness
My status is the baddest
Scientifical madness
Scientifical madness
My status is the baddest Chemical warfare
The telephoner acts like he lives here
The government is putting mad shit in the air
Projects are strategically set-up
In the case that shit you up
They easily blown up Poisonous gases
The so-called righteous help for the masses
But it's them that judge their own asses
Knowing what their task is
But still recedin', ass backwards

Do you need to ask me who the Devil is? Some may call it showbizz
I just call 'em hypocrites
'Cause they don't teach the children shit, positive
Like how a man should live
They only focus on the negative
So they're stuck in the ghetto While you drive a car an' got a condo
It's all for the do'-do'
It's killin' your own people
Profits greater than Peneco
Forget about what's equal
In this world of Scientifical madness
Scientifical madness
My status is the baddest
Scientifical madness
Scientifical madness
My status is the baddest Artificially inseminated
White bitches have babies
Most black youth are incarcerated
In the ghetto babies havin' babies but no loot
So most pregnancies are terminated Warlocks keep their covenant
An' the souls of the ignorant ones empower it
It's transparent
You see Uncle Sam as your parent
When America has beef
You jump up to defend it But you can still be a defendant
Ask my co-defendant
An' we're both innocent
Every black man in America faces imprisonment
Ridicule an' torment But in this tournament
The chosen few shall be triumphant
An' the Devil will be decapitated
So you can keep your docketts
An' your dresses, I won't be emasculated
In this world of Scientifical madness
Scientifical madness
My status is the baddest
Scientifical madness
Scientifical madness
My status is the baddest
