

# Electric Blue Monsoon

## Poly Styrene

Everybody's out, out on the street  
Everybody's looking sugar-plum sweet  
As I gazed into the powder blue skyI have a question in my mind's eye  
Is there an angel in heaven above?  
Eternal youth, beautiful you  
Color of electric blue monsoonElectric blue monsoon  
Electric blue monsoon  
Electric blue monsoon  
Ain't no answers from the cotton wool clouds  
Kissing rainbows as they float on byFeel everybody's out, out on the street  
Everybody's looking sugar-plum sweet  
Reality hit, car breaks into a screechMight run around, my heart skips a beat  
Is there an angel in heaven above?  
Eternal youth, beautiful you  
Color of electric blue monsoonElectric blue monsoon  
Electric blue monsoon  
Electric blue monsoonAin't no answers from the cotton wool clouds  
Kissing angels as they float on by  
Electric blue monsoon  
Electric blue monsoon  
Electric blue monsoonElectric blue monsoon  
Electric blue monsoon  
Electric blue monsoon
