

# Tentacles

## Bearsuit

Imagine when your lungs are filling up with liquid  
Intoxicated poison flowin' through your veins  
It seems like nothing's changed  
My purple neck is stating all that I'm against but..  
I guess that's how we end up  
When we're under.. waterMayday! mayday! this ships going down  
And as your captain I'm ready to drown..  
I'm gonna drown so deep in you  
I'm gonna drown so deep in youThis necklace that you've got wrapped around my neck.. Will choke me slowly  
to my death.. And I'm into thatThese weights are tied up to my legs  
Sinking lifeless has never felt so peaceful  
These waves are crashing all the same  
Water washing through this sea of peopleThis necklace that you've got wrapped around my neck.. Will choke  
me slowly to my death.. And I'm into that  
This necklace that you've got wrapped around my neck.. Will choke me slowly to my death.. And I'm into  
thatThe purple on your neck  
stating all that i'm against  
This ship is going down..  
This ship is going down..Mayday! Mayday! this ship's going down  
And as your captain I'm ready to drown  
it's been a good run  
but were fucked in this town  
now ill close my eyes tight  
till we sink to the groundThis necklace that you've got wrapped around my neck.. Will choke me slowly to my  
death.. And I'm into that
