

# Temptation

## Escort

All of the lights  
Shining over everything that they do  
Out in the night  
A place to be whatever they want to do  
Out here where we can let go  
Let it go, let it go, never slow  
The... sentimental  
Let it go  
Never coming down, never coming back  
to be... up to you  
Oh oh, Don't need to know you.  
Never take the time, never take the time you needed me to  
Oh oh, I'll never know  
Electric lights will shine through  
Don't need no confirmation  
I want to love like they do  
...to temptation.  
Through it they shine  
I can't pick apart what I believed  
Smoke and fire  
Let's see everything we wanted to see  
Out here where we can let go  
Let it go, let it go, never slow  
The. sentimental  
Let it go  
Never coming down, never coming back  
to be... up to you  
Don't need to know you.  
Never take the time, take the time you needed me to  
Oh oh, I'll never know  
Electric lights will shine through  
Don't need no confirmation  
I want to love like they do  
...to temptation.  
Electric lights will shine through  
Don't need no confirmation  
I want to love like they do  
...to temptation.
