On and off
You told me to wake you up
When the hand reaches the sixI crash over, laying (laying)
My eyes on the roadHelp me to hold on to all your foes,
they will be the last ones alwaysYou and I are lost can't save this,
world if we could see the truth through the lies
But you and I will never be the same
AgainOn and Off
The ropes in which I upheld
Two lines across your face
for every smile you gave
to me with loveHelp me to hold on to all your foes,
they will be the last ones alwaysYou and I are lost can't save this,
world if we could see the truth through the lies
But you and I will never be the same
AgainI beg myself to watch your face
and clear the sin of you away
for love the key will always be disguisedYou and I are lost can't save this,
world if we could see the truth through the lies
But you and I will never be the same
Again
