Show Me Lights

Friendly Fires

Sunset's dying
I can't wait to see the life you lead
Cold in darkness
I dream of what you see when you show it to me
Show me lights
Show me how you built this city that you roam
Show me lights
Show me how you make it glow, glow
Show me lights
Show me how you built this city that you roam
Show me lights
Show me how you make it glow, glow
Take me back
Take me back in the darkness
Take me back, take me back
Take me back in the darkness
Late night driving
With every word you say
You part the crowds in waves
Cold horizon
With every move you make
Your hands shows me the way
I wanna feel your world
And see the things that make you live
I wanna feel your rush
And taste the best you give tonight
Gotta make the most of this
Before they cut the lights
Show me lights, don't throw it away
Show me lights
Show me how you built this city that you roam
Show me lights
Show me how you make it glow, glow
Show me lights
Show me how you built this city that you roam
Show me lights
Show me how you make it glow, glow
Take me back

Take me back in the darkness
Take me back
Take me back in the darkness
Take me back, take me back
Take me back in the darkness
Take me back, take me back
Take me back in the darkness
I wanna feel your world
And see the things that make you live
I wanna feel your rush
And taste the best you give tonight
Gotta make the most of this
Before they cut the lights
Show me lights, don't throw it away
Show me lights
Show me how you built this city that you roam
Show me how you make it glow, glow
Show me how you built this city that you roam
Show me how you make it glow, glow
Show me lights, show me lights
Show me lights, show me lights
Show me lights
(Take me back, take me back, take me back in the darkness)
Show me lights
(Take me back, take me back, take me back in the darkness)
Show me lights
(Take me back, take me back, take me back in the darkness)
Show me lights
(Take me back, take me back, take me back in the darkness)
Take me back, take me back
Take me back in the darkness
Take me back, take me back
Take me back in the darkness
Take me back, take me back
Take me back in the darkness
Take me back, take me back
Take me back in the darkness
