

History

Elouiz

Could be the greatest story ever told,
the one that everyone will know. A priceless masterpiece, beautiful and valuable.

When people look at us, they can't denye.

Like the air we breathe is different,
like its something they been missing.

We are what... dreams are made of.

We're gonna stand the test of time. They're gonna write songs about us.

Talk about us in the magazines.

We are gonna be the inspiration,
for every happy ending.

Fairytales got nothing on us,
let's give the world, some poetry.

This love is gonna make history, history.

We can teach the moviestars,
how it feels from where we are.

How to kiss and how to sing,
how to light up that screen.

When people look at us they can't denye.

Like they finally found a reason,
for the art in the museums,
we are what, dreams are made of.

We're gonna stand the test of time. They're gonna write songs about us.

Talk about us in the magazines.

We're gonna be the inspiration,
for every happy ending.

Fairytales got nothing on us,
let's give the world, some poetry.

This love is... (history)...

And here we are!

They're gonna write songs about us.

Talk about us in the magazines (magazines).

We're gonna be the inspiration,
for every happy ending.

Fairytales got nothing on us,
let's give the world, some poetry.

This love is gonna make history, history.

This love is gonna make history, history.

Oh yeah yeah yeah yeah, history.
