

Blackboy

Tech N9ne

And I was told in school I was a fool
And money I'd never gain none
But I used my flow as a tool, they was cruel
Said I'd be no rapper, but I did work and became one Now it's a cryin shame, I'm buyin thangs
And they got debts, they got to pay back
I think I know why my teachers would
Look in my eye and say that
And why's that? Cuz I'm a blackboy
Came from nothin, don't mean my life means nothin
Made it out the game through the pain and sufferin
Y'all don't think I see them purses y'all clutchin? See, I'm a blackboy
Scared when you see me, frauds disappear like a genie
Little whiteboys want to be me
But you don't want to go through what I go through
True definition of a blackboy It must be the way that my pants sag
Or the sparklin diamonds on the watch my left hand has
I know my appearance is lookin like I am bad
In your department store all I wanna do is pop a damn tag Made it honest, that's why the blacks get mad at you
Even foreigners shop and got big gratitude
I make more than you, but you got this attitude
Like I can't be shoppin at Saks Fifth Avenue I'm just tryin to buy my baby some creed spring flower
But they don't know that the Tecca Nina cheese means power
So they look at me like none of my breed brings valor
That's why when you see us in passin we seem sour Last time I checked, my power shockeras
I was on top of the Indy charts and not a slotera
But I'm the author of darkness and I like the opera
So why when I'm at Macbeth they wont treat me more proper? Cuz I'm a blackboy
Came from nothin, don't mean my life means nothin
Made it out the game through the pain and sufferin
Y'all don't think I see them purses y'all clutchin? See, I'm a blackboy
Scared when you see me, frauds disappear like a genie
Little whiteboys want to be me
But you don't want to go through what I go through
True definition of a blackboy Frontline shoot, soldiers represent that
Frontline shoot, Grand Verb, it's the snatch back
Head wrapped in the desert, boombox on the camel back
Escape from the clone lab, fugitives spook black With finesse in you, its the knowledge from way back
The prophet of the page dont eat right till it all cracks
Blackboy rappin from the pages torn

Street scriptures more classic than the Jimmy Cracked Corn
A spawn of the movement, keep the music
movement

So my purpose stays clear and my music stays groovin

I do it for the real, I don't need Jena Six

For me to know America is still on that bullshit
So people think that black are just ball players and singers

That massa complex is what fuels the street bangers

And street soldiers to stand up, no choice to get it right

So these blackboys can finally get they man up
Cuz I'm a blackboy

Came from nothin, don't mean my life means nothin

Made it out the game through the pain and sufferin

Y'all don't think I see them purses y'all clutchin?
See, I'm a blackboy

Scared when you see me, frauds disappear like a genie

Little whiteboys want to be me

But you don't want to go through what I go through

True definition of a blackboy
I'm a blackboy and always gettin underestimated

But when I move next door, I know you hate it

You had my whole family investigated

And when they didn't find no crack, you said I ate it
Uh uh, a motherfucker just elevated

Over ghetto life that was designated

You see this blackboy, you know heaven made it

I don't want to go if I got to integrate it
You know pellot boy, be happy you made it

Just take what you got, and stop complainin

Ok, weather man will stop the rainin

On my people head, and start explainin
What your people said, believe in the bible

But you still act barbaric and psycho

My name is Ice Cube, bitch, it ain't Michael

I'll never bleach my own skin just to be like you
Cuz I'm a blackboy

Came from nothin, don't mean my life means nothin

Made it out the game through the pain and sufferin

Y'all don't think I see them purses y'all clutchin?
See, I'm a blackboy

Scared when you see me, frauds disappear like a genie

Little whiteboys want to be me

But you don't want to go through what I go through

True definition of a blackboy
